

Pair Of Large 17th Century Cherubs

4 800 EUR

Period : 17th century

Condition : Bon état

Material : Painted wood

Height : 87

Description

Magnificent pair of large polychrome carved oak cherubs from the 17th century. Superb original patina "never touched". Beautiful quality of sculpture, very strong expressiveness and beautiful treatment of the draperies. These sculptures must have come from a larger set, most likely from a 17th century Baroque altar. Modern steel bases 20/20cm. Good condition (accidents and losses).
