

## Small Box In Sèvres Porcelain Painted With Enamel And Bronze

240 EUR

Period : 19th century

Condition : A restaurer

Material : Porcelain

Width : 9 cm

Depth : 7 cm

### Description

The famous Sèvres blue as a background color for this box with a scalloped shape with landscape painting cartridges on the sides, the lid offers a delightful bucolic market scene, in enameled porcelain, it is further enhanced with golden enamels of Empire laurels. The box and its lid are circled with beautiful quality bronze whose hinge is faulty and requires restoration if necessary, however, if you leave it in a display case, this is not necessarily useful.
