

Black And White Enamel "telephone" Sign

180 EUR

Period : 20th century

Condition : Très bon état

Material : Enamel

Length : 22 cm

Height : 7 cm

Description

From the first half of the 20th century, this enamel plate has the merit of being in a more than satisfactory condition knowing that they always have chips and gaps, especially at the level of the holes for the screws. This one has only received tiny little knocks, in addition, it is of a pretty shape underlined by a small black line.
