Material : Stone

Length : 75 cm

Description

Gothic style gargoyle from the Violet le Duc period, circa 1840/1880

Reconstituted stone element developed in the 19th century

This gargoyle decorated a small private chapel in Seine et Marne until its demolition a few years ago

Certainly copied from a Gothic model, its solid structure will ensure its longevity for a long time. Small, fairly classic model, its small size makes it a very pleasant decorative object.

A minor but unwelcome repair in concrete was carried out under the head.

This does not call into question the solidity of the whole.
