Description

Very rare 60-piece service of the Triade Gold model by Christofle. Published in 1991 and produced until 2009, this model with gold rings is part of a design movement of the end of the twentieth century that was quickly dubbed the "Memphis Movement". The cutlery was quite expensive and therefore did not sell in as large numbers as some other more reasonably priced models. The cutlery is in excellent condition and still very shiny. There are therefore: 12 table forks 12 table spoons 12 table knives 12 dessert forks 12 dessert knives
