

1980s Spanish Foosball Kicker Table

7 000 EUR

Period : 20th century

Condition : Très bon état

Material : Other

Width : 166

Height : 90

Depth : 92

Description

A fantastic quality original solid wood-framed Spanish foosball table. Complete with painted metal players, an abacus-type scoring system, and a set of footballs. Two standout features of this wonderfully over-engineered table are: firstly, the playing surface slopes from both ends towards the middle, ensuring constant ball movement; and secondly, the players have two legs instead of the usual block feet, allowing for better ball control. It includes a coin-operated ball drop mechanism. Superb quality and ready to play. Circa 1980. Originally made in Spain, this exquisite soccer/foosball table is a true collector's piece for any foosball or football (soccer) enthusiast. The depth of the table without its arms is 92 cm and with its arms, it is 153 cm deep.
