18th Century Marble Vase

3 500 EUR

Period : 18th century

Condition : Bon état

Material : Marble

Diameter : 60

Height : 100

Description

Marble castle vase carved with drapes from the 18th century. This vase was to be used as a water plant holder because we can see that there were two round irons that crossed and served as a support for a plant that was partly submerged in the vase filled with water. At its base and on the outside there is an orifice where there must have been a tap for draining. Very beautiful work of sculpture from the 18th century.
