Description

Necklace adorned with a solitaire navette-cut diamond, mounted on a filed curb chain in 18 KT white gold (eagle's head hallmark). The rather rare navette cut of the diamond gives this necklace a V-shaped drop and a tapered and delicate design. The stone is supported on its lower point by a closed V-shaped setting, while the upper point has been left free, which gives this jewel lightness. The chain has a sturdy lobster clasp. Estimated diamond weight of approximately 0.28 carat Gross weight: 2.23 g Condition: imperceptible micro-scratches on the metal, natural inclusions in the diamond not visible to the naked eye Possibility of payment entirely remotely via the site. We remain at your disposal for any additional information concerning another method of payment. Our
