de Calonne was created in Arras and is inspired, according to tradition, by the embroidery stick that Mr. de Calonne wore on his jabot: was the motif invented for a service that was offered to him? This decoration is subject to a special price, slightly higher than that called "au petit dessin". The pieces decorated with it are relatively rare. (Extract from the catalogue of Arras porcelain - Musée d'Arras published in February 1992.
