Description

Mid-19th century centerpiece. On a solid silver base in the Louis XV Transition style, the base of which rests on four Rocaille feet decorated with relief medallions. The terrace is finely chiseled with scroll motifs. The slender vase-shaped shaft is surrounded by two female bodies supported on a console joined by garlands of protruding fruit. A circular Baccarat crystal bowl tops it all off! This cut and engraved crystal bowl has six types of decoration: facets / streaks / vine branches / laurel garlands / diamond tips / "cat's tongues". The crystal part has no defects: no chips or cracks. The same goes for the base, which has no missing parts, no dents and no traces of oxidation!
