## Pair Of Polychrome And Gold Enamelled Earthenware Vases - Japan, Satsuma Kidneys

400 EUR

Period : 20th century

Condition : Bon état

Material : Earthenware

Description
-------------

Pair of polychrome and gold glazed earthenware vases - Japan, Satsuma Kilns This pair of vases is a perfect representation of Satsuma earthenware, famous for its finesse and decorative richness. Ovoid in shape, these vases rest on a pedestal and have delicately sculpted handles, probably in the shape of stylized creatures. The decoration, made with great precision, depicts traditional Japanese characters, probably linked to religious or mythological stories. Characteristics: Decoration: Richly dressed relief characters, with golden halos, symbolizing sacred or important figures. The details are particularly neat in the patterns of the clothes and backgrounds. Colors: A polychrome palette with warm and deep tones (red, brown, green, and blue) with golden highlights, typical of Satsuma productions.
