### Description

Very beautiful pair of wall lights with pressed-molded glass and silver-plated bronze mounts from the Art Deco period. A beautiful model for these wall lamps typical of this period. A beautiful pressed-molded glass decorated with scrolls set in pretty, very stylized and worked silver-plated bronze mounts. The set is very elegant and balanced, I'll let you be the judge. The set is in good condition, no breakage, the patina of the mount has not been redone but remains very beautiful. Large size: 36 cm in length, circa 1925-1930. A very beautiful set to place in a modern or old interior... Timeless.
