Description

Beautiful bouillotte lamp in gilded bronze with fine gold. Beautiful Louis XVI style decoration with rows of pearls, grooves. The height of the light and the lampshade is adjustable. Good quality; our lamp is typical and is a production of the first half of the 19th century, still very close to 18th century productions. It is in good general condition: pierced for electricity, old paint on the lampshade peeling, one socket very slightly different from the other two. Height: 63cm
