Description

Another gem from the Antwerp ceramist F. SANCHEZ!

I don't have much biographical information on this artist at the moment. However, given the frequency of finds of various pieces by this artist, such as bowls on feet, basins, decorative wall plaques, his production and quality seem to be important enough to classify F. Sanchez in the category of renowned ceramists in Belgium for the second half of the 20th century.

Beautiful dimensions and beautiful variety of enamels for this wall piece made in the 60s: 50 cm high by 13 cm on the side.

Unique piece signed under the base.

In very good condition.
