These brilliant sovereigns reigned over Iran from 1786 to 1925.

This period is one of the most fascinating in the history of the country, which is then part of the concert of nations.

This dynasty opens itself widely to innovations and seeks to preserve its identity while assimilating Modernity.

The finesse of the carvings show the dexterity of the Persian engravers.

A true masterpiece of Persian art!!! These marvelous brasses and coppers, were under the Safavid or Kadjar dynasties, an eminent alternative to silver and they enjoyed the same status.

These objects certainly lived as the centerpieces of Persian houses.
