Description

Magnetic multifunction workshop lamp. Adher from the 1950s

Very rare complete model of industrial multifunction lamp from the 1950s

For desk and machine with its magnetic base on its turned steel base.

A horizontal return, fixed on the magnet, with bakelite grip supports a latch adjustable by butterfly screw.

The lamp is detached from the steel base to be, its foot being equipped with a powerful magnet, placed on a machine.

The metal deflector is painted the brand's green and the flexible neck covered with striated green plastic.

The olive switch on the original wire is in
