Description

Set of six vintage foal leather and steel chairs from the 60s and 70s. Very beautiful series, extremely rare on the market, in excellent original condition, unrestored and decorated with a very beautiful patina. Also very good condition of the metal structures which allow daily use. Designer to identify, we think of the April chair by Gae Aulenti published by the Zanotta house and also the pre-war Bauhaus movement. Very beautiful set to position in a classic or modern interior, even art deco. Note the practical nature of these structures which can be folded for possible storage. Possibility of sending in France and around the world by professional carrier or by secure and insured package with order tracking. Invoice and certificate provided.
