

Lorraine Oak Wardrobe Late 18th Early 19th Unknown Model

7 200 EUR

Period : 18th century

Condition : Très bon état

Material : Oak

Description

Exceptional oak wardrobe from the Metz region, very richly and finely carved from the end of the 18th century, beginning of the 19th century. The sides have 5 panels. Model unknown to me, in books and to enthusiasts. The cornice is magnificent. I am selling it in its original condition (no cabinetmaking required, just a patina and two missing handles). I can do the restoration for around 1000 euros more. Visible at the Route d'Arches shop in Raon-aux-Bois. For more information, call 06 09 03 18 46 or napoliantic@gmail.com. Delivery or shipping possible.
