### Description

Rare set of 4 large steel stools with integrated footrests. Unique prototype pieces designed by Joelle Rigal in the 2010s for Biobject and never marketed. Tractor-shaped seats. One of the stools is originally lacquered in a deep purple color. The other 3 are in raw steel and can be cleaned in order to lacquer them or leave them in natural steel. Each stool is heavy because they were made of 2mm thick sheet steel. 3 stools measure 81 cm high x 42 cm wide at the seat. 1 stool measures 79 cm high x 42 cm wide at the seat. Good general condition (to be cleaned or brushed).
