Pair Of Monumental Art Deco Wall Lights In Solid Bronze

1 650 EUR

Period : 20th century

Condition : Très bon état

Material : Bronze

Width : 63

Height : 62

Depth : 16

Description

Pair of 2-branch sconces in solid bronze, with unusual dimensions. They come from a large private castle in the Loire Valley. Completely disassembled to be cleaned. The electrical wiring has been revised so that these sconces are ready to install. Please note: they are solid bronze so they are very heavy given their dimensions. They match another pair of sconces, but with one branch. Possibility of making a rare set. Very high quality.
