

## Watercolor By Newton Fielding

480 EUR

Signature : Newton Fielding

Period : 19th century

Condition : Parfait état

Material : Water color

Width : 19

Height : 14

### Description

Watercolor representing a pair of pheasants in an undergrowth. The effect of the gap of light in the undergrowth is particularly well done. It is signed at the bottom left. The color has kept all its freshness. In the additional photos you will find a fairly similar work that went on sale.
