Beautiful 18th century marquetry chest of drawers bearing the incomplete stamp of Jacques Birklé (1734-1803) who received master on July 30, 1764. This chest of drawers is in rosewood in frieze and amaranth. A piece of furniture quite characteristic of this famous cabinetmaker supplier of the furniture store under Louis XVI. The five drawers (three drawers broken on the underside of the marble and two drawers without crosspieces) are mounted on oak. A gray Sainte Anne marble tops the top. Very neat cabinetmaking furniture with this dark amaranth background and this detachment of the rosewood. DIMENSIONS: 1.30MX 0.62M AND 0.88M HEIGHT DELIVERY ON QUOTE
