Description

Interesting pair of silver-colored metal casseroles. The belly of each vase is beautifully hammered and decorated with a pretty vine branch motif in applique. Each neck is decorated with a beautiful circular frieze in the shape of an openwork crown. On these crowns, the two handles representing chimeras are fixed. Our two vases rest on pretty bases with three feet each decorated with a mascaron. Shipping and protection costs 20 euros in metropolitan France, other destinations contact us.
