Description

Beautiful Louis XIV walnut chest of drawers from the 18th century.

A small-sized curved chest of drawers.

This chest of drawers is superb with a very beautiful patina of blond walnut with wax.

It opens with four drawers on the front, two drawers at the top and large drawers below.

The drawers are carved with gendarme hat moldings, reminiscent of the moldings of Parisian chests of drawers from the Ile de France.

The drawers slide perfectly and the slides have been restored.

The drawer interiors are original and mounted with dovetails.

The gilded bronzes are original, handles and lock entries finely chiseled and gilded.

The corbin beak top is mounted with miter cuts
