Description

We are offering for sale this entire 36 cm violin. It is apparently an exceptional copy after an Italian violin by Gasparo DA SALO, made in Brescia in 1590. Ours was made by a certain Herman DOLLIN JR. The violins of this exceptional violin maker are renowned for their great sound. I find the one we are offering exceptional. We are adding to this great violin a pernanbouc bow that weighs 56 gr. Free shipping for France. (E25)
