Description

Tray in solid rosewood and mother-of-pearl marquetry from Indochina. Very pretty tray in excellent condition, with a very pretty period patina. Note the representation of a very rich landscape animated by many characters. Very pleasant and bright contrast thanks to the use of mother-of-pearl in large quantities on a shimmering rosewood background. Possibility of positioning this tray like a painting thanks to the existing attachment system on the back. Very beautiful decorative effect. Possibility of sending in France and worldwide by secure and insured package with order tracking. Invoice and certificate provided.
