

Strong As Sandow... Wow

Description

Pair of Sandow 1kg 325 spring dumbbells in each hand, all that remains is to follow the instructions as did HM King Edward VII and HM Queen Alexandra HRH Prince of Wales, HRH Prince George of Greece, HRH Duchess of Aosta as well as almost all the sovereigns of Europe who were all provided with the same box of exercises ... As mentioned in the instruction booklet: any exercise becomes useless if one does not exercise one's strength and willpower and that the grip of the dumbbell alone forces one to make an effort of will ... Wow, I should not part with them by the way. After a good cleaning, the dumbbells and the tin can will be able to sit next to the cups and other gymnastics laurels ...
