

Oceania Plant Mask

350 EUR

Signature : A définir

Period : 19th century

Condition : Bon état

Material : Other

Width : 22

Height : 90

Depth : 18

Description

Very beautiful mask in plant fibers from Oceania. Ethnicity to be defined! Very beautiful work of braiding the fibers, highlighted by kaolin for the surroundings of the eyes and the side parts. Very decorative and of good quality! Small lack at the top of the time! Original patina! Visually very nice and not common on the market of primitive art. Period to be defined. Old model! Probably worn for ceremonies given the wear of the fibers!
