almost 50 years...This object was used by shepherds and field workers, day laborers, etc. There were several sizes, the number of which varies according to the production centers, from 4 to 6. The shapes of these dinner carriers are variable, they are truncated in Burgundy, pomiform in Ile-de-France, flared in Anjou, etc.; the attachments of the handles, depending on the region, represent cherubs' heads, rosettes, fleurons, human masks, etc. Among the BOUVIER in CLAMECY, we note small variations in the number of curls in the hair of the cherubs' headsBibliography: Bulletin of the scientific and artistic society of Clamecy No. 49 of 1975\*To access my tutorials related to pewters as well as my calendar of public sales, visit my website: http://www.commenchal-expert-etains.com\*\*\*\*\* \*\*\*\*\*\*\*\*\*\*\*\*GUARANTEEFormer professor at IDETH (Institute of Technical and Historical Studies of the Art Object)Former professor at the EAC (School of Art and Communication)Former member of the UFE (French Union of Experts)Expert specialist in pewter for more 40 years I guarantee the object is authentic described above.
