Description

Here is a very unique photo frame model, not to say one of a kind. Its structure is made of wire covered with raffia-type straw in an Italian format (horizontal) and with scalloped shapes. The spaces are woven like spider webs with different geometric designs. In places, the wire of the structure shows traces of oxidation, the back is made of paper and the photo slides in from the back.

Dimensions for the photo 13.5 x 18 cm
