### Description

In a "marine" format, the painter created a panoramic view of the small port of Saint Tropez with the village in the background.

Painting with a knife allows the material to be applied more thickly, and thus creates reliefs and texture effects that capture the light differently, the boats seem to move with the swell on their moorings.

Oil on panel 30 X 80 cm and 37 X 87 cm with the frame.

No visible signature, but the subject, the work of the material with a knife, the undulation of the waves, the masts ... are reminiscent of the works of Salomon le Tropézien.

Mid-20th century
