### Description

Here is a spectacular work by the Belgian painter Dan Parmentier. It is a triptych made in acrylic on a wooden panel. Each of the paintings is signed and dated on the front and countersigned and titled on the back. They are furnished with a new custom-made American box in matte black lacquered wood. This work, which is already almost 50 years old, has kept all the freshness of its initial colors and is in perfect condition. This very decorative creation is also spectacular because of its dimensions, almost one meter by three meters, enough to brighten up your interior thanks to a timeless subject and a visual aspect very much in tune with the times.
