Description

Imposing pair of gilded bronze candelabras from the 19th century. Each of the candelabras has a triangular base topped with a fluted shaft, nicely decorated with motifs borrowed from the plant kingdom. This supports five light arms, allowing the candles to be positioned, as well as bobeche collecting the melted wax. This Pair of Candelabras will undoubtedly be magnificent, the furniture on which you decide to place it, while diffusing a soft light with the charm of yesteryear.
