Depth : 1,5 centimètre d'épaisseur (mesure pied fermé)

Description

A small table frame...

From the 19th century around 1860...

Certainly from the PERPIGNAN region...

In solid gilded silver, in vermeil...

Checked with crab hallmarks on all parts...

That is 800/1000...

The goldsmith's hallmarks are illegible...

An openwork frieze surrounds the oval frame...

On this one, blue enamel cabochons interspersed with red enamel cabochons with a star in the center in white enamel...

All topped with an almandine garnet...

In very good condition, just wear from time on the vermeil in certain places...

No problem...!

The original glass is thick with a bisot...

Two tiny splinters around the perimeter...
