Description

ROOF WINDOW in Burgundy limestone

Period mid-19th century, around 1820/1830

Piece dismantled on a building whose roof was redone Piece in good condition and complete.

Two necessary repairs will be carried out by our cutting workshop before delivery

The 2 left and right supports of the lintel suffered during dismantling.

They were sealed with steel staples which rusted and caused the stone to burst with frost. Height of the whole, including the seat:

Total width of the seat : 1,40 m

Depth of the whole to the seat : 35 cm
