Description

This great specialist in views of Venice offers us this animated view of a canal in Venice. We admire the facades bathed in sunlight which illuminates the ochres and golds of the stone. The reflections on the calm water are executed in a remarkable way and create the very special atmosphere that the artist wants to render. The gondolas bring movement while remaining modest in size which is not always the case in this type of painting. The medium-sized format is of great quality.

Oil on canvas 38 x 46 cm Cream white lacquered frame: 50 x 58 cm
