Description

Magnificent Pair of Louis XV Rocaille style chiseled and gilded and engraved bronze candlesticks with two tones of matt and shiny gilding. Very beautiful assembly with a wide screw thread. Very beautiful chiseling. Thick and oily bronze which denotes a very high level of manufacturing and old gilding. Dimensions: Height 26 cm Width Barrel: 5 cm (bulge) Base Diameter: 15 cm Superb proportions. Original bobeches. Period 19th century Napoleon III Weight per candlestick: 1.5 kg, Very beautiful finely chiseled model, the particularly high weight of bronze also allows us to measure its quality. Architecture of the Candlestick: With a beautiful presence and seat, the bell-shaped base with rich moldings composed of a wide groove and rests on a scalloped flat with projections.

Shell clasps and stylized acanthus leaves.

Three-part arrangement decorated with floral engravings. Pretty thick and wide shaft with a very richly molded baluster-shaped shower foot decorated with acanthus leaves and shells. Its upper part is distinguished by a shower foot with placed palmettes and a pretty molded and engraved three-part leaf socket and accompanied by its beautiful bobèche with a hollow basin and contour decorated with acanthus leaves. The traditional design of the candlestick is here completely transformed by the search for dynamism and contrast. Starting from the asymmetrical base, a spiral movement envelops the object, accentuated by the opposition between ascending and descending elements. Opposing forces seem to confront each other and travel through the bronze with their quivering, in a vigorous permanent counter-movement.

Condition report: Very good condition with its superb original two-tone gilding with matt and brilliant. Superb engraving. Traces of use and age. Very decorative.
