in the invention of his images and in the treatment of the technique" (Anatomy of Color). Jacques Fabien Gautier d'Agoty (1716-1785) worked here based on the dissections made by the anatomist Joseph Guichard Duverney (1648-1730). He would carry out the dissections himself in the following years. Anatomy of Color, BNF, 1996, n° 93.
