Description

Floral ring crafted in 9K yellow gold, set with six opal cabochons and accented with diamonds.Four pear-shaped opals form the petals of the flower around a small central opal. A sixth opal extends the design along the shoulder of the ring, accompanied by diamonds that add an extra touch of light.The opals reveal delicate plays of color, showing soft pink, green and bluish tones depending on the light. Their floral arrangement creates a gentle and luminous motif, beautifully enhanced by the warmth of the yellow gold.The fluid movement of the setting accompanies the blossoming of the flower with softness. The composition evokes a delicate and natural femininity, while the small off-center opal extends the motif in a light and poetic gesture.The floral motif measures approximately 1.5 × 1.5
