Description
-------------

For a week now, we have been presenting the works of ceramic artist Claude Agier Mollinari. Here is a new object to discover, it is called "Gudea Seal - Temple Door". Contact us for more information on these works. "Impression of a cylinder seal in black steatite. AKKAD period (2350-2200 BC) A character dressed in a long robe, seated on a cubic seat, raises his left hand holding an object. Above, crescent moon and star. In front of him, kneeling, a bull; on his back temple door with two palms in the shape of wings. At the back, a bearded and naked character, one knee on the ground, pulls on a rope coming from the temple door. In the field, a date palm. Writing copy of a dedication to King Gudea, prince of Lagash Pyrite sandstone Brushed enamels on seal and writings. Work on
