Description

We are buyers of key collections, and collector's keys
Large key forged in an atypical way, long folded iron ribbon, knotted, so as to create the round ring, wedged with a central loop, a rod split from end to end, gathered in a base by a powerful circular ring. The rectangular bit is cut with inclined geometric open holes.
In the book by Charles Curtil Boyer, we see a key of same structure, I therefore rely on his expertise, see photos.
There were very few keys of this style..
19cm x 5.2cm. Good condition, normal wear and tear ...
