Description

Walnut desk with extractable front puller, made in Italy in the late 1700s

The main feature is its small size that allows it to be placed in environments, such as bedrooms or small offices, where the space dedicated to it is not much.

The extractable front puller, as wide as the entire top, significantly increases the work surface.

The five drawers, three with lock and two with knob, make this desk storage and versatile.

Pyramidal legs with end foot typical of the Louis XVI style

Antique working locks with key

Restored and polished with shellac inside and out.

Wax finish
