Description

Important and beautiful terrestrial globe of Library in boiled cardboard of the "Royale Géographique Société", a production of the years 1830, faithfully reproduced in the Years "90". A decorative and playful piece of curiosity, important and in very good condition. Imported across the Atlantic this beautiful and faithful piece is on a magnificent tripod in red mahogany varnished with a tampon and decorated with gilded bronzes and sober sabots of the same, it has the usual engraved circles. Uncommon this remarkable imposing piece will be the jewel of your Library or "Cabinet of Amateur". The continents in relief and faithful to the model, in soft colors. Just like its Elder this piece is executed with care and is the indistinguishable companion of the globe trotter, of the lover of

adventures to the four corners of the planet, the globe is removable on its cradle for transport and analysis. "Wonderful Earth, the continents and their distribution, like that of the immense oceans and seas with the currents indicated, the delimitation of the Pys by a judicious choice of colors and in reference to history by the upheaval of the states. A beautiful element for budding Geographer amateur of the journey from latitudes to longitudes, a wish of independence and freedom for the explorer of the World.... Piece in perfect condition with strong decorative power
