

## Two Ottoman Dirhems As Gold

85 EUR

Period : 20th century

Condition : Très bon état

Material : Bronze

Diameter : 5cm

### Description

The dirhem is the unit of measurement that divides the okka (a bit like our grams that calibrate our weights). In use in Turkey until 1950, these brass circles bear a string of control punches. Between 1949 and 1957. They each weigh 38.5 gr, rare and authentic objects.
