boxes. Below we have the serial numbers -OT05, . The OT05G series painted in gold with about 150 examples started in 1991, - OT05GP gold plated from 1992 and ending in 2015 with the last series of 6 that really stood out. Osaka made about 70 in the Plated version -OT05R for 1991 with 100 examples done in red Osaka made a few more and the last red version came out in 2015. There were a total of 151 examples of this rare red color. - to the Mono OT05MS done in a Blue/Grey finish with about 20 examples with 18 in 1999 and only 2 in 2010. - Osaka released a number of Black Metallic Robbies as well as a very limited version with the matching serial number #1956. - The last color series made was in White Osaka, the first release was in 1994 with 24 brands, then 2010 with 2 brands and the last in 12/2015 with copies Finally Osaka made a last edition at the end of 2015 not listed on the charts for shipping in January 2016, it was on the site for a short time, a nickel-plated version with 20 copies using the last remaining parts. "Sale of Mechanized Robot Nickel Finish Reservation" this robot is not a simple reproduction but a very qualitative interpretation of the original robby this nickel plating really adds something to it robby is customized! it lights up but does not work I do not know if it does the restoration because the attachment points are very small to see the box is similar to the original nomura.
