18 rue Mercœur

Nantes 44000

NB: The Tank ring is a massive and geometric ring, created at the time of the Second World War, it bears a name related to tanks.

Aquamarine from the Latin "aqua marina" is a beryl of a transparent light blue or blue and light green color. As it is a dichroic stone, it changes color slightly with the light when you move your

hand, which gives an additional charm to this ring.

Careful packaging, shipping by Colissimo with insurance.
