

## Two Leap Streams For The Skirts Of These Ladies Second Empire

120 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Length : 9.5 et 14 cm

Width : 4 et 7 cm

### Description

In bronze, gilded or black patinated, here is an essential accessory for these ladies in the 19th century, the saute ruisseaux. Hung with a rope and fixed on a garment, this saute ruisseaux is none other than a clip allowing to lift one's dress slightly while walking in the street and thus avoid dragging it and getting it dirty in the mud which was then present everywhere at the time.
