Its intensity of color does not deceive,

# The old and modern rugs of Morocco are always dyed naturally and this since the conservation obligations prescribed from the beginning of the 20th century by Marshal Liautey, craftsman of the French protectorate, to Prosper Ricard, responsible for the conservation of Moroccan traditions, the conservation and rehabilitation of heritage.

## City rug measuring 175 cm wide by 300 cm long.

# Urban art is rather based on symmetrical geometries that give rise to shapes that are repeated endlessly.

They generally take the form of medallions whose center evokes "Al Kaaba" (the tomb of the prophet).

The medallion placed in an orange hexagon with jagged lines surrounds the main pattern, a diamond of branches and pale gray flowers.

The diamond is a pattern that often comes back in decoration, ornamentation, knotted carpets and other artistic works, not only because of its decorative form, but also and above all for its symbolic meaning:

The immortality of the soul. The rare beauty of this very beautiful bright and colorful piece will transcend your interior.

The orange is magnificent, accompanied by a violin, ivory, plum ....

Dimensions: Width: 175 cm (69") x Length 300 cm (118")
