Description

- Magnificent alabaster sculpture of Spanish tradition. Due to the work on one side only, and the mortises that it presents in the lower parts, it is very possible that it integrates a relief or is part of an architectural decoration. The quality is very high and cannot be considered an attribution. - Good state of conservation, with defects, but stable in its condition and structure. There are no water leaks or hidden cracks. - Dimensions of the object: 19 x 11 x 7
