Description

Louis XV period chest of drawers stamped FG for François Garnier. Curved chest of drawers in violet wood veneer, opening with three drawers in two rows. How can we not notice this rich ornamentation of chiseled and gilded bronzes: the leafy falls continue in threads and end with lion's paw sabots decorated with floral decoration. The arched feet lighten the silhouette of the chest of drawers. Two brass rushes frame the lower drawer from above and below. Father of the famous cabinetmaker Pierre

Garnier, François Garnier worked on rue du

Faubourg-Saint Antoine where he was a sworn

member of the corporation of cabinetmakers from

1742 to 1744. Since the use of the stamp was not

obligatory at the beginning of his career, few

works could be attributed to him with certainty.

However, the signed furniture that we find like

this one demonstrate great attention to detail and

real talent. He died in Paris in 1774 on rue des

Moineaux.
